ABCOURT ENLARGES ITS VEZZA GOLD PROPERTY

Mont-St-Hilaire, Quebec, Canada, May 20, 2010.

Mr. Renaud Hinse, president and C.E.O. of Abcourt Mines Inc. (TSX-V:ABI, Berlin and Frankfurt Stock Exchanges:), is pleased to announce that Abcourt has increased the size of its VeZZa gold property by staking 10 cells representing 695 hectares.

The claims are located on a major gold structure in Quebec known as the Casa Berardi-Douay-Cameron zone. Recent press releases indicate a renewal of interest for that area. The adjoining Agnico-Eagle property in VeZZa Township was recently sold to North American Palladium for \$10 million and 50% of the Vior property located four kilometres to the west was optioned to Norvista Resources Corp. which has agreed to pay \$ 3 million in two instalments and to spend \$2.5 million on exploration work in the next eighteen months.

Abcourt Mines Inc. is an exploration and development company with strategically located properties in Northwestern Quebec, Canada. The Abcourt-Barvue project with 43-101 silver-zinc ore reserves and resources and the Elder mine with 43-101 gold resources and the Aldermac property with historical copper-zinc resources are all former producers. Abcourt is now focused on bringing the Abcourt-Barvue and Elder projects back in production and at the same time, it is working on other projects (Aldermac, Jonpol and Vendome), to increase its mineral resources inventory. A positive 43-101 feasibility study was completed in 2007 on the Abcourt-Barvue project. In addition, mill equipment was purchased. A 43-101 resource calculation was recently done for the Elder mine. To know more about Abcourt, please consult our web site www.abcourt.com and Sedar www.sedar.com, see "Abcourt Mines Inc". A small location plan and longitudinal projection of the Aldermac mineralized zones are shown on our web site. A small location plan of the Elder and Tagami properties is also shown on our web site.
